Ideographic Rapporteur Group

(IRG)

Source/Contribution Identifier : Hong Kong Special Administrative Region (HKSAR), China

Meeting : 21st IRG Meeting

Title : Submission of commonly used characters in HKSAR for inclusion in the Basic International Ideographs Subset of the ISO 10646 standard

Status : Member Submission

Requested Action: The attached commonly used characters in the HKSAR are herewith submitted. We wish to seek IRG's consideration for inclusion of the HKSAR characters in the Basic International Ideographs Subset of the ISO 10646 standard.

Submission from the Hong Kong Special Administrative Region

Basic International Ideographs Subset

For the purpose of the creation of the Basic International Ideographs Subset (BIIS) as set out in IRG document number N947, the Hong Kong Special Administrative Region (HKSAR) has compiled the most commonly used characters in the local community.

2. The commonly used characters in HKSAR in Annex 1 are herewith submitted for consideration by IRG for inclusion in the BIIS. There are a total of 315 characters in Annex 1. Sources of the characters therein are from 「常用字字形表」¹, Hong Kong Supplementary Character Set², characters popularly used in names of people, places and companies as well as used in the local Cantonese dialect.

3. The list of characters in Annex 2 is submitted to IRG for reference only. The characters therein are commonly used characters in HKSAR as defined in 「常用字字形表」¹ which also exist in the level 1 character set of Big-5. Based on discussions at the 20th IRG meeting, it is expected that the level 1 character set of Big-5 will become part of the BIIS because of the popular use of such characters. To avoid the checking by IRG of potentially duplicate lists of characters submitted by IRG members, the characters in Annex 2 do not form part of the formal HKSAR submission that requires processing by the IRG. However, if IRG decides that any parts of the level 1 character set of Big-5 are not to be included in the BIIS, HKSAR reserves the right to submit the characters in Annex 2 to IRG for consideration for inclusion in the BIIS.

¹ 「常用字字形表」(李學銘主編, 香港教育學院 2000 年). This reference document is published by the Hong Kong Institute of Education and is commonly referenced by primary schools in HKSAR as part of the syllabus of Chinese language studies.

² The Hong Kong Supplementary Character Set (HKSCS) contains special Chinese characters used in the HKSAR that are not contained in the Big-5 standard character set. The latest version is the HKSCS-2001 published in December 2001. Details of the HKSCS-2001 are available on the web site: <http://www.digital21.gov.hk/eng/hkscs/index.html>.

4. The characters in Annex 3 are popularly used in names of people, places or companies in the HKSAR and also appear in the level 1 character set of Big-5. Similar to Annex 2, the list of characters in Annex 3 is submitted to IRG for reference only. However, if IRG decides that any parts of the level 1 character set of Big-5 are not to be included in the BIIS, HKSAR reserves the right to submit the characters in Annex 3 to IRG for consideration for inclusion in the BIIS.

Actions requested

5. The HKSAR wishes to seek consideration by IRG for inclusion of the commonly used characters in Annex 1 into the BIIS of the ISO 10646 standard. IRG is also requested to take note of the purposes of attaching Annexes 2 and 3 to this paper as set out in paragraphs 3 and 4 above.

Information Technology Services Department
The Government of the Hong Kong Special Administrative Region
April 2003

Annex 1: Commonly used characters submitted by HKSAR for inclusion in Basic International Ideographs Subset (BIIS) version dated 20.6.03

The following table contains entry references of 400 characters.

Note 1: The entry reference is assigned in accordance with the format agreed at the 20th Ideographic Rapporteur Group (IRG) meeting.

Annex 2 : Commonly used characters of HKSAR that appear in both the “常用字字形表” and the level 1 character set of Big-5

The following table contains 4730 characters. The entry references of the characters are in accordance with the format agreed at the 20th Ideographic Rapporteur Group (IRG) meeting.

Note: 「常用字字形表」（李學銘主編，香港教育學院 2000 年）。This reference document is published by the Hong Kong Institute of Education and is commonly referenced by primary schools in HKSAR as part of the syllabus of Chinese language studies.
