RESOLUTION M44.17 (IRG Action Items):

a. Defects on Duplicate Encoded CJK Forms reported in document N2644.

Completed

b. Input on Basic International CJK subset in document N2649.

Completed

c. Extract from the SuperCJK database additional information in the format (such as dddddd.ddd for HYD) identified in the Editor's Note on page 2 in document SC2 N3673 (FPDAM-1 to 10646-2), and prepare input suitable for adding to the CJKU_SR.txt file, for consideration at the next WG 2 meeting in June 2004.

In progress. The PRC is still collecting data for this item. (IRG N 1024)

d. On the characters that are reported as 'mapped from HKSCS-2001 to PUA zone' in the last paragraph on page 2 of document N2667 (CJK Ideograph source references corrections) – classifying them as candidates for CJK Unified Ideographs or CJK Compatibility Ideographs – so that they can be given a potential encoding in the non-PUA zone.

Completed (IRG N 1024)

e. On the correct glyph to use for the characters 21E2D (G_4K source reference) and 21E45 (G_HZ source reference).

Completed. (IRG N 1024)
