Dear Editors,

IRG Resolution M23.9 (regarding WG2 Resolution M45.33) says "to assess the possibility and time schedule ... before IRG Meeting #24."

Japan's result of assessment is as follows: It is possible for Japan to provide J source visual reference information **\*now\***.

I expect IRG receives answers from member bodies before the Kyoto meeting. I also expect that the issue will be discussed in Kyoto as, a part of an appropriate agenda item.

Regards,

Masahiro Sekiguchi
