

ISO/IEC JTC1/SC2/WG2/IRG

Ideographic Rapporteur Group

(IRG)

According to the work plan developed at the last IRG meeting, the CJK Strokes ad-hoc group worked on the development of CJK Stroke repertoire based on the consolidated document from member submissions attached in this document.

During the meeting, the group reviewed one by one for all 44 candidates (ID1 to ID43 including ID29A) for independent strokes and discussed possible unification issues related to the development of the stroke encoding model. For all pending issues left over and for the encoding model, member bodies are requested to provide further contributions to discuss in the next IRG meeting.

Summary of issues

ID7 may be unified with ID6.

ID12 may be unified with ID11 or ID13.

ID24 may be unified with ID23.

ID29 may be unified with ID29A (U+31C8).

ID31 may be unified with ID30.

ID40 may be unified with ID8.
