Ideographic Rapporteur Group

(IRG)

Source/Contribution Identifier : Vietnam

Meeting : 25<sup>th</sup> IRG Meeting in Berkeley, CA, USA

Title : Activity Report

Status : Member Submission

Keywords: none

Short Description: This paper summarizes Vietnam activities since IRG#24

Proposed Conclusion / Required Action: None

Argument / Text of Contribution: See attached.

## **Activity Report of Vietnam**

Since the 24<sup>th</sup> IRG meeting, held in May 2005, matters relating to the ideograph standardization and implemetation in Vietnam are as follows:

1. To encourage the adoption of the ISO 10646 standard in Vietnam, a meeting between Vietnam IRG members and Vietnamese Nom Preservation Foundation (VNPF) and the national body TCVN was held in Hanoi, in July. The national body had accepted the proposal from VNPF for a new national standard including all Nom characters existed in ISO 10646 and also accepted to consider adopting ISO 10646 as a national standard.
2. VNPF is printing out the proposal for a new Nom national standard.
3. Ext.C1 Editorial Review : IRG Vietnam editor reviewed the final version of Ext. C1. There are still some differencies in choosing radicals between Vietnam and other members so that some Nom characters are in questioned status.
4. IRG#26 in Hue: Vietnam delegates and VNPF representative have visited Hue and discussed with authorities in Hue for preparing the next IRG meeing in Hue, in June. For synchronizing with Hue festival, being held 3 - 11, June, 2006, we propose the date for IRG meeting is 5-9th, June, 2006.
