

# Universal Multiple-Octet Coded Character Set UCS

ISO/IEC JTC1/SC2/WG2    **IRG N1202**

Date: 2006-06-01

Source:	Committee for Unification of Computer Chinese Character Encoding, Government of Macao Special Administrative Region
Title:	<b>Macao Comments to CJK_C1 v6.1</b>
Meeting:	IRG#26 in Hue, Vietnam
Status:	For IRG Discussion
Distribution:	IRG Members and Ideographic Experts
Medium:	Electronic

- After Macao SAR reviewed the CJK Extension C1 V6.1 (N1194), we have noted that there are 3 characters submitted by us are in U set (please refer to the following table for details). Macao SAR does NOT suggest the three characters to be unified, as they are now used in person names in Macao.

 14887	 U+07825
m and t	unification and glyph mistakenly designed from hand writing?
 04030	 20C61
MAC00005	
 21045	 09213
	 U+923A
MAC00016	

- Besides, we also found that there are 3 characters (please refer to the following table) submitted by us before, are missing in any of the files (M, U, G and D sets) in CJK Extension C1 V6.1 (N1194).

C1 No.	M Source No.	Glyph
07097	MAC00015	嬪
12429	MAC00009	燭
18184	MAC00013	菡

We have notified the above two points, via email, to Chief Editor on 29 May 2006.

- Due to intensive work schedule, Macao SAR apologizes not be able to attend the IRG#26 meeting. If there is any discussion and/or decision to be made for our submitted characters in the meeting, please kindly consult us via email: [arnie@safp.gov.mo](mailto:arnie@safp.gov.mo), and [cchau@safp.gov.mo](mailto:cchau@safp.gov.mo).
