## Request to remove one T-source character from CJK-C1

We found a wrong T-source character when we checked the latest CJK-C1 set with CNS 11643 code table. The radical of C1 character no. 13129 is “fire”, but the radical of its source TD-4F5C is “water”. We do not know what happen on the character. For the quality of C1 set, we suggest to remove the character from C1. We will put it to the C2 set in the future.

c1-v20	Glyph	T-Source	explanation
13129		TD-4F5C	It is a <b>wrong Glyph</b> , should be  .
