Title: Registration Fees for IVS Collections

Source: John H. Jenkins, Unicode Consortium

Status: Liaison Contribution

Action: For consideration by the IRG

Date: 2008-11-13

Because of concerns raised by IRG members regarding the fees for registering a new IVS Collection with the Unicode consortium, I contacted the consortium officers to get further information.

I'm pleased to inform the IRG that the decision of the Unicode Technical Committee was that there would be no fee charged for registrations sponsored by SC2 (including the IRG).
