Meeting : 38th IRG Meeting in Gyeongju, Korea

Title : Activity Report

Status : Member Submission

Activity Report of the Hong Kong Special Administrative Region

Adoption of ISO/IEC 10646

1. Since the publication of the HKSCS-2008 in year 2009, the Hong Kong SAR Government received 259 applications to include a total of 471 characters into the ISO/IEC 10646 standard. The applications were carefully examined and verified. Except 7 characters of which the applications were subsequently withdrawn due to insufficient evidences provided, the remaining 464 out of the 471 characters were found in the ISO/IEC 10646 standard and the assignment of new code point was not necessary. The assessment result was endorsed by our Chinese Language Interface Advisory Committee (CLIAC).
2. In accordance with the Resolution M37.3 of the IRG37 held on 7-11.11.2011 that call on Members to review the CJK Extension E in two review rounds, the Office of the Government Chief Information Officer (OGCIO) worked together with the Official Languages Division (OLD) completed the review of the CJK Ext. E v7.0 and v7.1 on schedule and provided feedbacks to IRG members' chief editors for consideration and discussion at the IRG38 meeting. The comments raised were mainly on Radical, First stroke, Stroke count and Unification of the characters.
