ISO/IEC JTC1/SC2/WG2/IRGN2328

Date: 2018-10-25

Source:	CJK editorial group
Title:	Editorial Report on IRG WS2017
Meeting:	IRG#51, Ha Noi, Viet Nam
Status :	To be Approved by IRG plenary
Actions required	To be followed by IRG members
Distribution:	IRG
Medium :	Electronic
Page:	2
Appendix:	1

Editors from China, HKSAR, Japan, R.O.Korea, SAT, TCA, USA, Unicode Consortium, Viet Nam and some individuals met during IRG#51. The editorial group discussed the IRG WS2017 issues.

1. Clarification of the Use of IVD/IVS

Reference:

- IRGN2340 Request to discuss when and why to use IVS/IVD (Chen Zhuang, Wei Lin Mei, Tseng Shih-Shyeng, and Eiso Chan)
 - Feed back from Ken Lunde
 - Feed back from Henry Chan

The experts discussed these documents and agreed:

- 1) Unifications should not be proposed without existing rules or proposed new rules, necessary information (reasons) must be available.
- 2) It is submitters' own decision rather than IRG's that whether a character should be registered to IVD.
- 3) Submitters must provide the corresponding variants, if any, when submitting ideographs for encoding.
- 4) "Cognate" does not equal to "variant", thus IRG PnP v11 Section 1.3b will be revised to clear that concept.

2. Review of WS2017v2.0

Reference:

- IRGN2309 IRG WS2017v2.0
 - Consolidated Comments from China, Japan, ROK, HKSAR, SAT, TCA, UK, UTC, Viet Nam and individuals
 - Responses from China, ROK, SAT, TCA, UK, UTC, Viet Nam

The editors discussed these comments and decided:

- 1) A former WS2015 character (SN03617 UK-01969 𠄎𠄎𠄎) is accepted for inclusion in WS2017 as an exceptional case. (Also recorded in IRGN2327 Editorial Report on CJK_G.)
- 2) 12 T glyphs will be updated as shown in TCA responses.
- 3) Some comments on T glyphs, from UK and Henry Chan, should be revised and submitted to IRG for discussion.
- 4) Epigraphic characters and characters with Clerical Script should also be submitted with new evidences if any.
- 5) Better evidences for characters from 《一切經音義》, except 大正藏 and 白蓮社, questioned by Ming Fan, should be found if any.
- 6) Attributes other than Radicals will be checked by the IRG Chief Editor, the corrections will be reflected in IRGN2347 IRG WS2017v3.0.

For detailed records, read appendix of this document.

3. WS2017v3.0 Review Schedule

- 2018-11-23: IRG Chief Editor distributes data of IRGN2347 IRG WS2017v3.0 to IRG experts.
- 2018-11-23: WS2017 character submitters submit updated BMP/PNG to the IRG Chief Editor and Mr. Henry Chan.
- 2018-12-07: Mr. Henry Chan releases the online IRG review tool based on the data of IRGN2347 IRG WS2017v3.0
- 2019-02-22: IRG experts submit review results to the online IRG review tool.
- 2019-04-26: WS2017 character submitters provide response to the online IRG review tool.

Appendix: Discussion records on the consolidated comments of IRGN2309 IRG WS2017v2.0.

Discussion Record for IRG Meeting #51

Date: Generated on 2018-10-27

Note 1: Highlighting is based on final status *after applying all decisions* made in IRG Meeting #51. Rows in YELLOW are characters moved to the Pending set and rows in GRAY are characters moved to the Unified&Withdrawn Set. Source references and attributes shown reflect values before the meeting.

Note 2: As a result of uncolcluded debate of the issue "change NUCV Rule #194 支/攴 to UCV" near the end of the meeting, several characters which were originally concluded unified had their status changed to POSTPONE after the meeting. Such characters are listed at the end of the discussion record. The transliteration characters submitted by UK, due to submitor's agreement to unify, have not been kept as is (unified) and not changed to postponed.

Note 3: As a result of IRG discussion, the characters with Clerical script evidence and epigraphic characters are to be POSTPONED for other evidence and/or further investigation. The characters from specific versions of 《一切經音義》 are also POSTPONED for other evidence. (Please refer to IRGN2328.) In this discussion record, only characters *that had been discussed* have their status changed.
