

Universal Multiple-Octet Coded Character Set  
UCS

ISO/IEC JTC1/SC2/IRGN2865

Date: 2025-09-26

Doc. Type:	Member body contribution
Title:	Feedback to IRG N2834
Source:	TCA
Status:	Input to IRG meeting 65
Action:	For consideration by JTC1/SC2/WG2/IRG
Distribution:	IRG Members and Ideographic Experts
No. of pages:	1
Appendixes	None
Medium:	Electronic

This disunification issue was discussed at IRG Meeting #64 (online). Then, Eisoch proposed in IRG N2834 to unify this character with U+2EA07 instead of assigning a new code point. TCA agrees with this approach.

➤ U+2F9FF & U+2EA07

- A. IRG M64.08: Disunification of U+980B, U+FACB, U+2F9FF (IRG N2786, IRG N2765)
- B. IRG N2834 suggests to Unify KP1-869A and T6-6430 to U+2EA07 願. □ and 願 are the variants of 願.
- C. **TCA agrees with IRG N2834 Suggestion.**  
(Remove T6-6430 from U+2F9FF, request its mapping to U+2EA07 as a horizontal extension, and update the T-Source of U+2F9FF to TU-2F9FF.)
