

IRG N2870

Title: Comment on IRG N2859

Status: This document is a letter to the IRG convener

Source: National Body of Japan

Date: 2025-09-25

Comment:

Japan reconfirms the principle that disunification shall not be applied to published encoded characters. As ISO/IEC 10646:2020/Amd 2:2025 has already been published, this principle is applied here as well.

Therefore, the current status of U+2A50D, U+5CC0, U+72CA, U+7BF9, U+26B20, U+2F93B, and U+21694 should be maintained.
