1. Actions that IRG ask to WG2 to take

- a) IRG will submit the stable draft text of "Annex: Rules of Unification and Arrangement for CJK Ideographs" to WG2, as requested by resolution TKS-5 of WG2 meeting 24. IRG asks WG2 to accept the text and process the draft PDAM by the fastest way.

- b) IRG will submit contribution "IRG's proposal on 5 columns' representation of East Asian Unified Ideographs in ISO/IEC 10646" to WG2. IRG asks WG2 to consider the proposal for the future revision of ISO/IEC 10646.
- c) IRG will submit contribution "IRG comments to WG2 N946" to WG2. IRG asks WG2 to revise the WG2 N946 taking the IRG comments described in the contribution into account.
- d) IRG will submit contribution "Defect report on ISO/IEC 10646-1 name of source standards of CJK Unified Ideographs" to IRG. IRG asks WG2 to include those corrections into the corrigenda of ISO/IEC 10646-1 that WG2 is now planning to issue.
- e) IRG may submit a repertoire of East Asian Unified Ideographs to be included in the nearest future amendment of ISO/IEC 10646-1. Those repertoire does not need assignment of new code points in ISO/IEC 10646-1, but putting character glyph in vacant cells of existing code tables in ISO/IEC 10646-1. IRG asks WG2 to accept this proposal and amend ISO/IEC 10646-1 in the fastest way.
- f) IRG has a plan to develop another report of an East Asian Unified Ideographs repertoire to be included in the nearest future amendment of ISO/IEC 10646 and requires new code point assignment, by the meeting 27 of WG2 in June 1995. IRG asks WG2 to accept this development and submission plan.
- g) IRG has a plan to hold its forth meeting in February 1995 at Taipei. The expected major discussion item of the meeting is the East Asian Ideographs repertoire described item e) above. IRG asks WG2 to approve to have the IRG meeting as planed.
