Grant Support

Work on unencoded scripts has been funded primarily by donors and the National Endowment for the Humanities Preservation and Access grant (under the name Universal Scripts Project). The NEH grant, PR-268710-20, is funding work into the first part of 2023. In addition, the Unicode Adopt-a-Character program is funding work on Kerinci, Kulitan, Linear Elamite, Lampung, Proto-Cuneiform, Proto-Elamite, Tolong Siki, Ranjana, and Proto-Sinaitic; the SEI Project Leader has been (and will be) involved on all of these, many of which also have support from the NEH grant. A Google research grant is supporting work on Egyptian Hieroglyphs in 2021-2022.

Poster

SEI worked with Johannes Bergerhausen, Hochschule Mainz, and Atelier National de Recherche Typographique ([ANRT](https://anrt.fr)) in Nancy, France on a poster of the World's Writing Systems, which includes with one glyph per script. The poster is now available and can be had for a donation to SEI. (Donation details are available at: <https://linguistics.berkeley.edu/sei/how-to-donate.html> and an image of the available posters is available at: <https://linguistics.berkeley.edu/sei/special-offer.html>)
