Status

This document also presents all characters that constitute tentative new repertoire for future versions of the Unicode Standard after version 16.0 and ISO/IEC 10646:2020 Amendment 2 with code positions, representative glyphs and character names.

The intent is to be synchronized with the table of 'Code Points Provisionnally Assigned' published in the Unicode pipeline at <https://www.unicode.org/alloc/Pipeline.html>.

Feedback is welcome regarding all aspects of these characters, including whether they are acceptable for eventual encoding and publication.

Manner of Presentation

In this document, the new characters are not shown in the context of the existing characters. The existing characters will be shown in the future version of this code chart. The occasional use of the word <reserved> in this draft is an artifact of the production process and should be ignored.

Note to Reviewers

Please use this document as a summary of UTC review of pending proposals.
